64. Claim Payment Amount

6	232	237	PACK

Amount of payment made from the Medicare trust fund for the services covered by the claim record. Generally, the amount is calculated by the FI or carrier; and represents what was paid to the institutional provider, physician, or supplier, with the exceptions noted below. **NOTE: In some situations, a negative claim payment amount may be present; e.g., (1) when a beneficiary is charged the full

deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most prevalent situation involves psych hospitals who are paid a daily per diem rate no matter what the charges are.)

Under IP PPS, inpatient hospital services are paid based on a predetermined rate per discharge, using the DRG patient classification system and the PRICER program. On the IP PPS claim, the payment amount includes the DRG outlier approved payment amount, disproportionate share (since 5/1/86), indirect medical education (since 10/1/88), total PPS capital (since 10/1/91). After 4/1/03, the payment amount could also include a "new technology" add-on amount. It does NOT include the pass-thru amounts (i.e., capital-related costs, direct medical education costs, kidney acquisition costs, bad debts); or any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any any other payer reimbursement.

Under IRFPPS, inpatient rehabilitation services are paid based on a predetermined rate per discharge, using the Case Mix Group (CMG) classification system and the PRICER program. From the CMG on the IRF PPS claim, payment is based on a standard payment amount for operating and capital cost for that facility (including routine and ancillary services). The payment is adjusted for wage, the % of low-income patients (LIP), locality, transfers, interrupted stays, short stay cases, deaths, and high cost outliers. Some or all of these adjustments could apply. The CMG payment does NOT include certain pass-through costs (i.e. bad debts, approved education activities); beneficiary-paid amounts, other payer reim-bursement,and other services outside of the scope of PPS.

Under LTCH PPS, long term care hospital services are paid based on a predetermined rate per discharge based on the DRG and the PRICER program. Payments are based on a single standard Federal rate for both inpatient operating and capital-related costs (including routine and ancillary services), but do NOT include certain pass-through costs (i.e. bad debts, direct medical education, new technologies and blood clotting factors). Adjustments to the payment may occur due to short-stay outliers, interrupted stays, high cost outliers, wage index, and cost of living adjust-ments.

Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as RUGS III. For the

SNF PPS claim, the SNF PRICER will calculate/return the rate for each revenue center line item with revenue center code = '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.

Under Outpatient PPS, the national ambulatory payment classification (APC) rate that is calculated for each APC group is the basis for determining the total claim payment. The payment amount also includes the outlier payment and interest.

Under Home Health PPS, beneficiaries will be classified into an appropriate case mix category known as the Home Health Resource Group. A HIPPS code is then generated corresponding to the case mix category (HHRG).

For the RAP, the PRICER will determine the payment amount appropriate to the HIPPS code by computing 60% (for first episode) or 50% (for subsequent episodes) of the case mix episode payment. The payment is then wage index adjusted.

For the final claim, PRICER calculates 100% of the amount due, because the final claim is processed as an adjustment to the RAP, reversing the RAP payment in full. Although final claim will show 100% payment amount, the provider will actually receive the 40% or 50% payment. The payment may also include outlier payments.

Exceptions: For claims involving demos and BBA encounter data, the amount reported in this field may not just represent the actual provider payment.

For demo Ids '01','02','03','04' -- claims contain amount paid to the provider, except that special 'differentials' paid outside the normal payment system are not included.

For demo Ids '05','15' -- encounter data 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the MCO.

For demo Ids '06','07','08' -- claims contain actual provider payment but represent a special negotiated bundled payment for both Part A and Part B services. To identify what the conventional provider Part A payment would have been, check value code = 'Y4'. The related noninstitutional (physician/supplier) claims contain what would have been paid had there been no demo.

For BBA encounter data (non-demo) -- 'claims' contain
amount Medicare would have paid under FFS, instead of
the actual payment to the BBA plan.

10	257	266	CHAR

On an institutional claim, the National Provider Identifier (NPI) number assigned to uniquely identify the institutional provider certified by Medicare to provide services to the beneficiary.

NOTE: Effective May 2007, the NPI will become the national standard identifier for covered health care providers. NPIs will replace current OSCAR provider number, UPINs, NSC numbers, and local contractor provider

identification numbers (PINs) on standard HIPPA claim transactions. (During the NPI transition phase (4/3/06 - 5/23/07) the capability was there for the NCH to receive NPIs along with an existing legacy number (UPIN, PIN, OSCAR provider number, etc.)).

NOTE1: CMS has determined that dual provider identifiers (old legacy numbers and new NPI) must be available in the NCH. After the 5/07 NPI implelmentation, the standard system maintainers will add the legacy number to the claim when it is adjudicated. We will continue to receive the OSCAR provider number and any currently issued UPINs. Effective May 2007, no NEW UPINs (legacy number) will be generated for NEW physicians (Part B and outpatient claims), so there will only be NPIs sent in to the NCH for those physicians.

On an institutional claim, the national provider identifier (NPI) number assigned to uniquely identify the physician who has overall responsibility for the beneficiary's care and treatment.

NOTE: Effective May 2007, the NPI will become the national standard identifier for covered health care providers. NPIs will replace current OSCAR provider number, UPINs, NSC numbers, and local contractor provider identification numbers (PINs) on standard HIPPA claim transactions. (During the NPI transition phase (4/3/06 - 5/23/07) the capability was there for the NCH to receive NPIs along with an existing legacy number (UPIN, PIN, OSCAR provider number, etc.)).

NOTE1: CMS has determined that dual provider identifiers (old legacy numbers and new NPI) must be available in the NCH. After the 5/07 NPI implementation, the standard system maintainers will add the legacy number to the claim when it is adjudicated. We will continue to receive the OSCAR provider number and any currently issued UPINs. 155. Claim Demonstration Identification Number

2	2	3	CHAR

Effective with Version H, the number assigned to identify a demo. This field is also used to denote special processing (a.k.a. Special Processing Number, SPN).

NOTE: Prior to Version H, Demo ID was stored in the redefined Claim Edit Group, 4th occurrence, positions 3 and 4. During the H conversion, this field was populated with data throughout history (as appro-private either by moving ID on Version G or by deriving from specific demo criteria).

01 = Nursing Home Case-Mix and Quality: NHCMQ (RUGS) Demo -- testing PPS for SNFs in 6 states, using a case-mix classification system based on resident characteristics and actual resources used. The claims carry a RUGS indicator and one or more revenue center codes in the 9,000 series.

NOTE1: Effective for SNF claims with NCH weekly process date after 2/8/96 (and service date after 12/31/95) -- beginning 4/97, Demo ID '01' was derived in NCH based on presence of RUGS phase # '2','3' or '4' on incoming claim; since 7/97, CWF has been adding ID to claim.

NOTE2: During the Version H conversion, Demo ID '01' was populated back to NCH weekly process date 2/9/96 based on the RUGS phase indicator (stored in Claim Edit Group, 3rd occurrence, 4th position, in Version G).

02 = National HHA Prospective Payment Demo -- testing PPS for HHAs in 5 states, using two alternate methods of paying HHAs: per visit by type of HHA visit and per episode of HH care.

NOTE1: Effective for HHA claims with NCH weekly process date after 5/31/95 -- beginning 4/97, Demo ID '02' was derived in NCH based on HCFA/ CHPP-supplied listing of provider # and start/ stop dates of participants.

NOTE2: During the Version H conversion, Demo ID '02' was populated back to NCH weekly process date 6/95 based on the CHPP criteria.

03 = Telemedicine Demo -- testing covering traditionally noncovered physician services for medical consultation furnished via two-way, interactive video systems (i.e. teleconsultation) in 4 states. The claims contain line items with 'QQ' HCPCS code.

NOTE1: Effective for physician/supplier (nonDMERC) claims with NCH weekly process date after 12/31/96 (and service date after 9/30/96) -- since 7/97, CWF has been adding Demo ID '03' to claim.

NOTE2: During Version H conversion, Demo ID '03' was populated back to NCH weekly process date 1/97 based on the presence of 'QQ' HCPCS on one or more line items.

04 = United Mine Workers of America (UMWA) Managed Care Demo -- testing risk sharing for Part A services, paying special capitation rates for all UMWA beneficiaries residing in 13 designated counties in 3 states. Under the demo, UMWA will waive the 3-day qualifying hospital stay for a SNF admission. The claims contain TOB '18X','21X','28X' and '51X'; condition code = W0; claim MCO paid switch = not '0'; and MCO contract # = '90091'.

NOTE: Initially scheduled to be implemented for all SNF claims for admission or services on 1/1/97 or later, CWF did not transmit any Demo ID '04' annotated claims until on or about 2/98.

05 = Medicare Choices (MCO encounter data) demo -- testing expanding the type of Managed Care plans available and different payment methods at 16 MCOs in 9 states. The claims contain one of the specific MCO Plan Contract # assigned to the Choices Demo site.

NOTE1: Effective for all claim types with NCH weekly process date after 7/31/97 -- CWF adds Demo ID '05' to claim based on the presence of the MCO Plan Contract #. ***Demonstration was terminated 12/31/2000.***

NOTE2: During the Version H conversion, Demo ID '05' was populated back to NCH weekly process date 8/97 based on the presence of the Choices

indicator (stored as an alpha character cross-walked from MCO plan contract # in the Claim Edit Group, 4th occurrence, 2nd position, in Version 'G').

06 = Coronary Artery Bypass Graft (CABG) Demo -- testing bundled payment (all-inclusive global pricing) for hospital + physician services related to CABG surgery in 7 hospitals in 7 states. The inpatient claims contain a DRG '106' or '107'.

NOTE1: Effective for Inpatient claims and physician/supplier claims with Claim Edit Date no earlier than 6/1/91 (not all CABG sites started at the same time) -- on 5/1/97, CWF started transmitting Demo ID '06' on the claim. The FI adds the ID to the claim based on the presence of DRG '106' or '107' from specific providers for specified time periods; the carrier adds the ID to the claim based on receiving 'Daily Census List' from participating hospitals. ***Demo terminated in 1998.***

NOTE2: During the Version H conversion, any claims where Medicare is the primary payer that were not already identified as Demo ID '06' (stored in the redefined Claim Edit Group, 4th occurrence, positions 3 and 4, Version G) were annotated based on the following criteria: Inpatient - presence of DRG '106' or '107' and a provider number=220897, 150897, 380897,450897,110082,230156 or 360085 for specified service dates; noninstitutional - presence of HCPCS modifier (initial and/or second) = 'Q2' and a carrier number =00700/31143 00630,01380,00900,01040/00511,00710,00623, or 13630 for specified service dates.

07 = Virginia Cardiac Surgery Initiative (VCSI) (formerly referred to as Medicare Quality Partnerships Demo) -- this is a voluntary consortium of the cardiac surgery physician groups and the non-Veterans Administration hospitals providing open heart surgical services in the Commonwealth of Virginia. The goal of the demo is to share data on quality and process innovations in an attempt to improve the care for all cardiac patients. The demonstration only affects those FIs that process

claims from hospitals in Virginia and the carriers that process claims from physicians providing inpatient services at those hospitals. The hospitals will be reimbursed on a global payment basis for selected cardiac surgical diagnosis related groups (DRGs). The inpatient claims will contain a DRG '104', '105', '106', '107', '109'; the related physician/supplier claims will contain the claim payment denial reason code = 'D'.

NOTE: The implementation date for this demo is 4/1/03. The FI will annotate the claim with the demo id add Demo ID '07' to claim. For carrier claims, the Standard Systems will annotate the claim with the '07' demo number.

08 = Provider Partnership Demo -- testing per-case payment approaches for acute inpatient hospitalizations, making a lump-sum payment (combining the normal Part A PPS payment with the Part B allowed charges into a single fee schedule) to a Physician/Hospital Organization for all Part A and Part B services associated with a hospital admission. From 3 to 6 hospitals in the Northeast and Mid-Atlantic regions may participate in the demo.

NOTE: The demo is on HOLD. The FI and carrier will add Demo ID '08' to claim.

15 = ESRD Managed Care (MCO encounter data) -- testing open enrollment of ESRD beneficiaries and capitation rates adjusted for patient treatment needs at 3 MCOs in 3 States. The claims contain one of the specific MCO Plan Contract # assigned to the ESRD demo site.

NOTE: Effective 10/1/97 (but not actually implemented at a site until 1/1/98) for all claim types -- the FI and carrier add Demo ID '15' to claim based on the presence of the MCO plan contract #.

30 = Lung Volume Reduction Surgery (LVRS) or National Emphysema Treatment Trial (NETT) Clinical Study -- evaluating the effectiveness of LVRS and maximum medical therapy (including pulmonary rehab) for Medicare beneficiaries in last stages of emphysema at 18 hospitals nationally, in collaboration with

NIH.

NOTE: Effective for all claim types (except DMERC) with NCH weekly process date after 2/27/98 (and service date after 10/31/97) -- the FI adds Demo ID '30' based on the presence of a condition code = EY; the participating physician (not the carrier) adds ID to the noninstitutional claim. DUE TO THE SENSITIVE NATURE OF THIS CLINICAL TRIAL AND UNDER THE TERMS OF THE INTERAGENCY AGREEMENT WITH NIH, THESE CLAIMS ARE PROCESSED BY CWF AND TRANSMITTED TO HCFA BUT NOT STORED IN THE NEARLINE FILE (access is restricted to study evaluators only).

31 = VA Pricing Special Processing (SPN) -- not really a demo but special request from VA due to court settlement; not Medicare services but VA inpatient and physician services submitted to FI 00400 and Carrier 00900 to obtain Medicare pricing -- CWF WILL PROCESS VA CLAIMS ANNOTATED WITH DEMO ID '31', BUT WILL NOT TRANSMIT TO HCFA (not in Nearline File).

37 = Medicare Coordinated Care Demonstration -- to test whether coordinated care services furnished to certain beneficiaries improves outcome of care and reduces Medicare expenditures under Part A and Part B. There will be at least 14 Coordinated Care Entities (CCEs). The selected entities will be assigned a provider number specifically for the demonstration services.

NOTE: All claims will be processed by carriers; no FI processing (except for Georgetown site)

37 = Medicare Disease Management (DMD) -- the purpose of this demonstration is to study the impact on costs and health outcomes of applying disease management services supplemented with coverage for prescription drugs for certain Medicare beneficiaries with diagnosed, advanced-stage congestive heart failure, diabetes, or coronary heart disease. Three demonstration sites will be used for this demonstration and it will last for 3 years. (Effective 4/1/2003).

NOTE: All claims will be processed by NHIC-California (Carrier). FIs will only serve as a conduit for transmitting information to and from CWF about the NOEs.

38 = Physician Encounter Claims - the purpose of this

demo id is to identify the physician encounter claims being processed at the HCFA Data Center (HDC). This number will help EDS in making the claim go through the appropriate processing logic, which differs from that for fee-for-service. **NOT IN NCH.**

NOTE: Effective October, 2000. Demo ids will not be assigned to Inpatient and Outpatient encounter claims.

39 = Centralized Billing of Flu and PPV Claims -- The purpose of this demo is to facilitate the processing carrier, Trailblazers, paying flu and PPV claims based on payment localities. Providers will be giving the shots throughout the country and transmitting the claims to Trailblazers for processing.

NOTE: Effective October, 2000 for carrier claims.

40 = Payment of Physician and Nonphysician Services in certain Indian Providers -- the purpose of this demo is to extend payment for services of physician and nonphysician practitioners furnished in hospitals and ambulatory care clinics. Prior to the legislation change in BIPA, reimbursement for Medicare services provided in IHS facilities was limited to services provided in hospitals and skilled nursing facilities. This change will allow payment for IHS, Tribe and Tribal Organization providers under the Medicare physician fee schedule.

NOTE: Effective July 1, 2001 for institutional and carrier claims.

48 = Medical Adult Day-Care Services -- the purpose of this demonstration is to provide, as part of the episode of care for home health services, medical adult day care services to Medicare beneficiaries as a substitute for a portion of home health services that would otherwise be provided in the beneficiaries home. This demo would last approx. 3 years in not more than 5 sites. Payment for each home health service episode of care will be set at 95% of the amount that would otherwise be paid for home health services provided entirely in the home.

NOTE: Effective July 5, 2005 for HHA claims.

190. Revenue Center Healthcare Common Procedure Coding System Code

5	39	43	CHAR

Healthcare Common Procedure Coding System (HCPCS) is a collection of codes that represent procedures, supplies, products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs. The codes are divided into three levels, or groups, as described below:

DB2 ALIAS : REV_CNTR_HCPCS_CD
STANDARD ALIAS : REV_CNTR_HCPCS_CD
TITLE ALIAS : HCPCS_CD

LENGTH : 5

COMMENTS :
Prior to Version H this field was named: HCPCS_CD. With Version H, a prefix was added to denote the location of this field on each claim type (institutional: REV_CNTR and non-institutional: LINE).

NOTE: When revenue center code = '0022' (SNF PPS), '0023' (HH PPS), or '0024' (IRF PPS); this field contains the Health Insurance PPS (HIPPS) code.

The HIPPS code for SNF PPS contains the rate code/ assessment type that identifies (1) RUG-III group the beneficiary was classified into as of the RAI MDS assessment reference date and (2) the type of assessment for payment purposes.

The HIPPS code for Home Health PPS identifies (1) the three case-mix dimensions of the HHRG system, clinical, functional and utilization, from which a beneficiary is assigned to one of the 80 HHRG categories and (2) it identifies whether or not the elements of the code were computed or derived. The HHRGs, represented by the HIPPS coding, will be the basis of payment for each episode.

The HIPPS code (CMG Code) for IRF PPS identifies the clinical characteristics of the beneficiary. The HIPPS rate/CMG code (AXXYY - DXXYY) must contain five digits. The first position of the code is an

A, B, C, or 'D'. The HIPPS code beginning with an 'A' in front of the CMG is defined as without comorbidity. The 'B' in front of the CMG is defined as with comorbidity for Tier 1. The 'C' is defined as comorbidity for Tier 2 and 'D' is defined as comorbidity for Tier 3. The 'XX' in the HIPPS rate code is the Rehabilitation Impairment Code (RIC). The 'YY' is the sequential number system within the RIC.

For SNF PPS, HH PPS & IRF PPS HIPPS values see CLM_HIPPS_TB.

Level I

**** Note: ****
CPT-4 codes including both long and short descriptions shall be used in accordance with the HCFA/AMA agreement. Any other use violates the AMA copyright.

Level II
Includes codes and descriptors copyrighted by the American Dental Association's Current Dental Terminology, Second Edition (CDT-2). These are 5 position alpha-numeric codes comprising the D series. All other level II codes and descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of HCFA, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha-numeric codes representing primarily items and nonphysician services that are not represented in the level I codes.

Level III

196. Revenue Center Payment Method Indicator Code

	2	54	55	CHAR

Effective with Version 'I', the code used to identify how the service is priced for payment. This field is made up of two pieces of data, 1st position being the service indicator and the 2nd position being the payment indicator.

NOTE1: This field is populated for those claims that are required to process through Outpatient PPS Pricer. The type of bills (TOB) required to process through are: 12X, 13X, 14X (except Maryland providers, Indian Health Providers, hospitals located in American Samoa, Guam and Saipan and Critical Access Hospitals (CAH)); 76X; 75X and 34X if certain HCPCS are on the bill; and any outpatient type of bill with a condition code '07' and certain HCPCS. These claim types could have lines that are

not required to price under OPPS rules so those lines would not have data in this field.

Additional exception: Virgin Island hospitals and hospitals that furnish only inpatient Part B services with dates of service 1/1/02 and forward.

NOTE2: It has been discovered that this field may be populated with data on claims with dates of service prior to 7/00 (implementation of Claim Line Expansion OPPS/HHPPS). The original understanding of the new revenue center fields was that data would be populated on claims with dates of service 7/00 and forward. Data has been found in claims with dates of service prior to 7/00 because the Standard Systems have processed any claim coming in 7/00 and after, meeting the above criteria, through the Outpatient Code Editor (OCE) regardless of the dates of service.

NOTE3: Effective 10/2005, this field will no longer represent the service indicator and the payment indicator. This field will now house the 2-byte payment indicator. The status indicator will be housed in a new field named: REV_CNTR_STUS_IND_CD.

Effective with Version 'I', this code represents a factor that specifies the amount of any APC discount. The discounting factor is applied to a line item with a service indicator (part of the REV_CNTR_PMT_MTHD_IND_CD) of 'T'. The flag is applicable when more than one significant procedure is performed. **If there is no discounting the factor will be 1.0.**

NOTE1: This field is populated for those claims that are required to process through Outpatient

The type of bills (TOB) required to process through are: 12X, 13X, 14X (except Maryland providers, Indian Health Providers, hospitals located in American Samoa, Guam and Saipan and Critical Access Hospitals (CAH)); 76X; 75X and 34X if certain HCPCS are on the bill; and any outpatient type of bill with a condition code '07' and certain HCPCS. 201. Revenue Center IDE, NDC, UPC Number

24	61	84	CHAR

Effective with Version H, the exemption number assigned by the Food and Drug Administration (FDA) to an investigational device after a manufacturer has been approved by FDA to conduct a clinical trial on that device. HCFA established a new policy of covering certain IDE's which was implemented in claims processing on 10/1/96 (which is NCH weekly process 10/4/96) for service

dates beginning 10/1/95. IDE's are always associated with revenue center code '0624'.

NOTE1: Prior to Version H a 'dummy' revenue center code '0624' trailer was created to store IDE's. The IDE number was housed in two fields: HCPCS code and HCPCS initial modifier; the second modifier contained the value 'ID'. There can be up to 7 distinct IDE numbers associated with an '0624' dummy trailer. During the Version H conversion IDE's were moved from the dummy '0624' trailer to this dedicated field.

NOTE2: Effective with Version 'I', this field was renamed to eventually accommodate the National Drug Code (NDC) and the Universal Product Code (UPC). This field could contain either of these 3 fields (there would never be an instance where more than one would come in on a claim). The size of this field was expanded to X(24) to accommodate either of the new fields (under Version 'H' it was X(7). DATA ANAMOLY/LIMITATION: During an CWFMQA review an edit revealed the IDE was missing. The problem occurs in claim with an NCH weekly process dates of 6/9/00 through 9/8/00. During processing of the new format the program receives the IDE but then blanked out the data.

4	93	96	PACK

A quantitative measure (unit) of the number of times the service or procedure being reported was performed according to the revenue center/HCPCS code definition as described on an institutional claim.

Depending on type of service, units are measured by number of covered days in a particular accommodation, pints of blood, emergency room visits, clinic visits, dialysis treatments (sessions or days), outpatient therapy visits, and outpatient clinical diagnostic laboratory tests.

NOTE1: When revenue center code = '0022' (SNF PPS) the unit count will reflect the number of covered days for each HIPPS code and, if applicable, the number of visits for each rehab therapy code.

6	97	102	PACK

Charges relating to unit cost associated with the revenue center code. Exception (encounter data only): If plan (e.g. MCO) does not know

the actual rate for the accommodations, $1 will be reported in the field.

NOTE1: For SNF PPS claims (when revenue center code equals '0022'), CMS has developed a SNF PRICER to compute the rate based on the provider supplied coding for the MDS RUGS III group and assessment type (HIPPS code, stored in revenue center HCPCS code field).

NOTE2: For OP PPS claims, CMS has developed a PRICER to compute the rate based on the Ambulatory Payment Classification (APC), discount factor, units of service and the wage index.

NOTE3: Under HH PPS (when revenue center code equals '0023'), CMS has developed a HHA PRICER to compute the rate. On the RAP, the rate is determined using the case mix weight associated with the HIPPS code, adjusting it for the wage index for the beneficiary's site of service, then multiplying the result by 60% or 50%, depending on whether or not the RAP is for a first episode.

On the final claim, the HIPPS code could change the payment if the therapy threshold is not met, or partial episode payment (PEP) adjustment or a significant change in condition (SCIC) adjustment. In cases of SCICs, there will be more than one '0023' revenue center line, each representing the payment made at each case-mix level.

NOTE4: For IRF PPS claims (when revenue center code equals '0024'), CMS has developed a PRICER to compute the rate based on the HIPPS/CMG (HIPPS code, stored in revenue center HCPCS code field).

Data has been found in claims with dates of service prior to 7/00 because the Standard Systems have processed any claim coming in 7/00 and after, meeting the above criteria, through the Outpatient Code Editor (OCE) regardless of the dates of service.

Effective with Version I, the amount paid to the beneficiary for the services reported on the line item.

NOTE1: This field is populated for those claims that are required to process through Outpatient PPS Pricer. The type of bills (TOB) required to process through are: 12X, 13X, 14X (except Maryland providers, Indian Health Providers, hospitals located in American Samoa, Guam and Saipan and Critical Access Hospitals (CAH)); 76X; 75X and 34X if certain HCPCS are on the bill; and any outpatient type of bill with a condition code '07' and certain HCPCS. These claim types could have lines that are not required to price under OPPS rules so those lines would not have data in this field.

Additional exception: Virgin Island hospitals and hospitals that furnish only inpatient Part B services with dates of service 1/1/02 and forward.

216. Revenue Center Total Charge Amount

6	163	168	PACK

The total charges (covered and non-covered) for all accommodations and services (related to the revenue code) for a billing period before reduction for the deductible and coinsurance amounts and before an adjustment for the cost of

services provided. NOTE: For accommodation revenue center total charges must equal the rate times units (days).

EXCEPTIONS:
(1) For SNF RUGS demo claims only (9000 series revenue center codes), this field contains SNF customary accommodation charge, (ie., charges related to the accommodation revenue center code that would have been applicable if the provider had not been participating in the demo).

(2) For SNF PPS (non demo claims), when revenue center code = '0022', the total charges will be zero.

(3) For Home Health PPS (RAPs), when revenue center code = '0023', the total charges will equal the dollar amount for the '0023' line.

(4) For Home Health PPS (final claim), when revenue center code = '0023', the total charges will be the sum of the revenue center code lines (other than '0023').

(5) For Inpatient Rehabilitation Facility (IFR) PPS, when the revenue center code = '0024', the total charges will be zero. For accommodation revenue codes (010X - 021X), total charges must equal the rate times the units.

(6) For encounter data, if the plan (e.g. MCO) does not know the actual charges for the accommodations the total charges will be $1 (rate) times units (days).

to SNF and Home Health consolidated billing. If the line item service was paid by an intermediary prior to the submission of the SNF or home health claim an adjustment for the outpatient claim will be submitted identifying those services that are subject to consolidated billing.

Effective 10/3/2005 with the implementation of NCH/NMUD CR#2, the code used to identify the status of the line item service. This field along with the payment method indicator field is used to identify how the service was priced for payment.

NOTE1: This 2-byte indicator is being added due to an expansion of a field that currently exist on the revenue center trailer. The status indicator is currently the 1st position of the Revenue Center Payment Method Indicator Code. The payment method indicator code is being split into two 2-byte fields (payment indicator and status indicator). The expanded payment indicator will continue to be stored in the existing payment method indicator field. The split of the current payment method indicator field is due to the expansion of both pieces of date from 1-byte to 2-bytes.

01 = RRB Category Equatable BIC - changed (all claim types) -- applied during the Nearline 'G' conversion to claims with NCH weekly process date before 3/91. Prior to Version 'H', patch indicator stored in redefined Claim Edit Group, 3rd occurrence, position 2.
02 = Claim Transaction Code made consistent with NCH payment/edit RIC code (OP and HHA) -- effective 3/94, CWFMQA began patch. During 'H' conversion, patch applied to claims with NCH weekly process date prior to 3/94. Prior to version 'H', patch indicator stored in redefined Claim Edit Group, 4th occurrence, position 1.
03 = Garbage/nonnumeric Claim Total Charge Amount set to zeroes (Instnl) -- during the Version 'G' conversion, error occurred in the derivation of this field where the claim was missing

revenue center code = '0001'. In 1994, patch was applied to the OP and HHA SAFs only. (This SAF patch indicator was stored in the redefined Claim Edit Group, 4th occurrence, position 2). During the 'H' ocnversion, patch applied to Nearline claims where garbage or nonnumeric values.

04 = Incorrect bene residence SSA standard county code '999' changed (all claim types) -- applied during the Nearline 'G' conversion and ongoing through 4/21/94, calling EQSTZIP routine to claims with NCH weekly process date prior to 4/22/94. Prior to Version 'H' patch indicator stored in redefined Claim Edit Group, 3rd occurrence, position 4.

05 = Wrong century bene birth date corrected (all claim types) -- applied during Nearline 'H' conversion to all history where century greater than 1700 and less than 1850; if century less than 1700, zeroes moved.

06 = Inconsistent CWF bene medicare status code made consistent with age (all claim types) -- applied during Nearline 'H' conversion to all history and patched ongoing. Bene age is calculated to determine the correct value; if greater than 64, 1st position MSC ='1'; if less than 65, 1st position MSC = '2'.

07 = Missing CWF bene medicare status code derived (all claim types) -- applied during Nearline 'H' conversion to all history and patched ongoing, except claims with unknown DOB and/ or Claim From Date='0' (left blank). Bene age is calculated to determine missing value; if greater than 64, MSC='10'; if less than 65, MSC = '20'.

08 = Invalid NCH primary payer code set to blanks (Instnl) -- applied during Version 'H' con- version to claims with NCH weekly process date 10/1/93-10/30/95, where MSP values = invalid '0', '1', '2', '3' or '4' (caused by erroneous logic in HCFA program code, which was corrected on 11/1/95).

09 = Zero CWF claim accretion date replaced with NCH weekly process date (all claim types) -- applied during Version 'H' conversion to Instnl and DMERC claims; applied during Version 'G' conversion to non-institutional (non-DMERC) claims. Prior to Version 'H', patch indicator stored in redefined claim edit group, 3rd occurrence, position 1.

10 = Multiple Revenue Center 0001 (Outpatient, HHA and Hospice) -- patch applied to 1998 & 1999 Nearline and SAFs to delete any revenue codes that followed the first '0001' revenue center code. The edit was applied across all institutional claim types, including Inpatient/ SNF (the problem was only found with OP/HHA/ Hospice claims). The problem was corrected 6/25/99.

11 = Truncated claim total charge amount in the fixed portion replaced with the total charge amount in the revenue center 0001 amount field -- service years 1998 & 1999 patched during quarterly merge. The 1998 & 1999 SAFs were corrected when finalized in 7/99. The patch was done for records with NCH Daily Process Date 1/4/99 - 5/14/99.

12 = Missing claim-level HHA Total Visit Count -- service years 1998, 1999 & 2000 patch applied during Version 'I' conversion of both the Nearline and SAFs. Problem occurs in those claims recovered during the missing claims effort.

13 = Inconsistent Claim MCO Paid Switch made consistent with criteria used to identify an inpatient encounter claim -- if MCO paid switch equal to blank or '0' and ALL conditions are met to indicate an inpatient encounter claim (bene enrolled in a risk MCO during the service period), change the switch to a '1'. The patch was applied during the Version 'I' conversion, for claims back to 7/1/97 service thru date.

14 = SNF claims incorrectly identified as Inpatient Encounter claims -- SNF claims matching the Inpatient encounter data criteria were incorrectly identified as Inpatient encounter claims (claim type code = '61' instead of '20' or '30'). NOTE: if the SNF claims were identified the MCO paid switch was set to '1'. The patch was applied to correctly identify these claims as a '20' or '30'. The MCO paid switch will be set to '0' as there is no way to recover the original value. The problem occurred in claims with an NCH Weekly Process Date ranging from 7/7/2000 - 1/26/2001. The patch applied date is 03/30/2001.

15 = HHA Part A claims with overlaid revenue center lines - During the Version 'I' conversion, NCH made each segment of a claim contains a maximum of 45 revenue lines. During the month of June 2000 our CWFMQA had to be ready to except the new expanded format, but the

NCH was not ready. CWFMQA converted these 'I' claims back to Version 'H', a typo in the code caused the additional revenue lines to overlay some of the revenue lines on the base/initial record/segment. The problem occurred in claims with NCH Weekly Process dates from 6/16/00, 6/23/00, 6/30/00 and 7/7/00 (both Version 'H' & 'I' files).

In the Version 'I' files, the annual service year 2000 files, service year 1999 and 1998 trickles were patched. The 18-month service year 1999 was also patched (the service year 2000 SAF was created after the fix was applied).

The patch applied date is 06/29/2001.

*******EXPLANATION OF CLAIM ADJUSTMENT GROUP CODES*******
**************POSITIONS 1 & 2 OF ANSI CODE***************
CO = Contractual Obligations -- this group code should
be used when a contractual agreement between the
payer and payee, or a regulatory requirement, re-
sulted in an adjustment. Generally, these adjust-
ments are considered a write-off for the provider
and are not billed to the patient.

CR = Corrections and Reversals -- this group code should
be used for correcting a prior claim. It applies
when there is a change to a previously adjudicated
claim.

OA = Other Adjustments -- this group code should be used
when no other group code applies to the adjustment.

PI = Payer Initiated Reductions -- this group code should
be used when, in the opinion of the payer, the adjust-
ment is not the responsibility of the patient, but
there is no supporting contract between the provider
and the payer (i.e., medical review or professional
review organization adjustments).

PR = Patient Responsibility -- this group should be used
when the adjustment represents an amount that should
be billed to the patient or insured. This group
would typically be used for deductible and copay
adjustments.

LIMITATIONS APPENDIX FOR RECORD: FI_HHA_CLM_REC
AS OF: 08/01/2011

CHOICES_DEMO_LIM

FULL NAME: Choices Demonstration Limitation
DESCRIPTION :
A programming error created an 'INVALID' indication
in the demo text field for CHOICES claims.
BACKGROUND :
In 6/00, the CWFMQA front-end editing revealed that some
CHOICES demo claims were coming in with a valid 'H'
number in the fixed portion of the claims, but in the
first occurrence MCO trailer a numeric packed field
(value hex '0100000C') was moved to the MCO Contract
Number/Option Code fields. This created an invalid
period check of number/code to MCO effective date,
resulting in an INVALID indication in the demo info
text field.
CORRECTIVE ACTION :
The problem was forwarded to the CWF BSOG staff
for further investigation.

CLM_TRANS_CD_LIM

FULL NAME: Claim Transaction Code Limitation
DESCRIPTION :
Claim Transaction Code missing from 1999 inpatient
records and there was also a problem identified
in the May and June 2000 data.
BACKGROUND :
Users of the data discovered taht the claim trans-

action code was missing values 2 & 3 for service year 1999 and for the months of May and June, 2000. This information was confirmed and OIS/BSOG was notified.

CORRECTIVE ACTION :

In July 2000 the problem was fixed and the claim transaction code contained the correct values.

HHA_AB_SHIFT_LIM

FULL NAME: HHA A/B Shift Limitation

DESCRIPTION :

There were several problems with the final HHA claims containing both Part A and Part B visits (RIC 'U'). The prorated amounts in value code 64/65 were not reliable and the claim-level total visit count did not always balance to the PTA & PTB visits.

BACKGROUND :

Although the claim-level reimbursement is correct, the value code 64/65 amounts representing the prorated Part A and Part B trust fund payments are not reliable. The other problem with the HH PPS RIC 'U' data is that the claim-level HHA total visit count does not always balance to the total Part A and Part B visits, as reported in the value code 62/63 amount fields.

CORRECTIVE ACTION :

CMM staff has been consulted and the problem will be corrected at some future date, but in the interim users need to know how to derive the correct prorated amounts from the existing data. The following is the agreed-upon approach:

(1) Assume the claim-level reimbursement amount is correct on all final HHA claims, and properly includes any outlier payment. Nothing needs to be added to the field to derive the total Medicare trust fund payment.

(2) For those final HHA claims (RIC 'U') that report both Part A and Part B visits, drop whatever is reported in the value codes 64 and 65 (Part A/B reimbursement), and substitute the correct prorated amounts derived by:

(a) Adding up Part A and Part B visits, as reported in the value codes 62/63 amount fields (don't use the claim-level total visits because of the out-of-balance anamoly);

(b) Calculating percentage of total visits (from Step 1) attributable to Part A and Part B; and

(c) Applying the percentages to the claim-level reimbursement amount derive the correct Part A and Part B reimbursement (value code 64/65 amounts).

HHA_HCPCS_LIM

FULL NAME: Home Health HCPCS Limitation
DESCRIPTION :
It was determined that providers were not complying with the 15-minute increment billing instructions for using the 'G' HCPCS codes.
BACKGROUND :
The instructions state that providers are to use the newly created 'G' codes to identify services of the six home health disciplines during an HH episode of care. These 'G' codes (G0151, G0152, G0153, G0154, G0155, G0156) are subject to 15-minute interval billing. As a result the user can not trust the 'G' codes for visit counting. For a more accurate accounting of services the user should rely on the revenue center codes rather than the HCPCS.

Currently there is a check that if the 15-minute increment 'G' codes appear, the revenue center code must be the corresponding HH discipline; however, there is no check to see if the discipline revenue center code appears and that the HCPCS contains the corresponding 'G' code.
CORRECTIVE ACTION :
The Standard Systems has put a fix in to correct this problem.

HHA_MISG_CLM_LIM

FULL NAME: HHA Missing Claim Limitation
DESCRIPTION :
Incomplete HHA claims date beginning with service year 1998.
BACKGROUND :
The problem is related to the implementaion of the shift of payment for Medicare HHA visits between Part A and Part B trust funds. Claims with dates of service from 1/1/98, with visits that spanned A/B split, were auto canceled in a one time run at the end of June 1998. Although these claims were canceled (and therefore not in the NCH), these claims were paid.

There was a national total of 4,506,501 claims with

service dates 1/1/98 and after; of which 63,029 (or 2%)
were the missing cancel only claims which needed to
be recovered.

All HHA files (NCH, SAF, HCIS) contained incomplete data
until the problem was fixed.

CORRECTIVE ACTION :

A Two-Timer Utility was used to recalulate all Home Health
benefit periods to determine the correct A or B benefits
for claims in house.

A Three-Timer Utility was developed to create a file
to identify all HHA claims that were auto-adjusted or
auto-canceled in the June 1998 One-Timer and from
current claims processing throught 5/21/99. The
utility automatically processed the automatic adjust-
ments/cancels and submitted the new claims to CWF for
approval/posting and sent them to the NCH.

HHA_PPS_LUPA_IND_CD_LIM

FULL NAME: HHA PPS LUPA Indicator Code Limitation

DESCRIPTION :

LUPA indicator code blanked out.

BACKGROUND :

For Home Health PPS claims, the LUPA indicator was
blanked out since the beginning of HHPPS (10/1/00).

CORRECTIVE ACTION :

CWFMQA put in a fix which was effective with claims
with an NCH Weekly Process Date 3/16/01.

HHA_PPS_LUPA_0023_LINE_LIM

FULL NAME: HHA PPS LUPA '0023' Revenue Center Line Limitation

DESCRIPTION :

There are inconsistencies with the Home Health PPS
LUPA claims with the '0023' revenue center line.

BACKGROUND :

One of the Home Health PPS requirements for LUPA claims
was that on a LUPA claim the '0023' revenue center
line should show zero payment and the per visit amounts
should be shown on the visit lines.

Prior to 4/1/02, noncovered revenue center lines were

not being submitted to CWF. This should have meant that all LUPA claims in NCH should not have a '0023' revenue center line until after 4/1/02 implementation of noncovered revenue lines on OP, HHA & Hospice claims.

The problem was that one Standard System (APASS) did not implement the requirement correctly. APASS showed the total payment amount for the LUPA on the '0023' line and no payments on the visits. This caused the NCH to have both LUPA claims with no '0023' line and some with the '0023' line.

CORRECTIVE ACTION :

Since APASS payments are accurate and there is no adverse provider impact from this variance, a resource decision was made not to pursue a fix to this issue in APASS. The RHHI (only one) currently on the APASS system will transition off of APASS onto FISS in 2004 and the variance should be resolved at that time.

HHA_PPS_RIC_CD_ADJSTMT_LIM

FULL NAME: Home Health PPS RIC Code Adjustment Limitation

DESCRIPTION :

The Record Identification Code (RIC) on Home Health PPS claims were not being adjusted properly.

BACKGROUND :

The value code on HHA claims that are auto-adjusted in CWF are not being changed to agree with the adjustment being made to the RIC code. For example, the HHA claims are initially received as a Part B (RIC 'W' with a value code '63'); then subsequently adjusted to Part A (RIC 'V'), but the value code is not changed to '62'.

CORRECTIVE ACTION :

A Change Request was written to correct this problem. The change was implemented March 2001.

HHA_PTA_OVRLD_TRLR_LIM

FULL NAME: HHA Part A Overlaid Trailer Limitation

DESCRIPTION :

Overlaid revenue center lines on HHA RIC 'V' claims

BACKGROUND :

During the Version 'I' conversion, it was decided that each segment of a claim would contain a maximum of 45 revenue center lines. During the month of June 2000 the CWFMQA began receiving the new

format, but the NCH was not scheduled to receive the new format until July 2000. Since NCH was not ready, CWFMQA converted the 'I' claims back to the Version 'H' format. A typo in the code caused the additional revenue lines to overlay revenue lines on the base/initial record/segment.

The problem occurred in 2,627 HHA Part A (RIC 'V') claims with between 46-58 revenue center lines and NCH Weekly Process dates 6/16/00, 6/23/00, 6/30/00 and 7/7/00 (both Version 'H' and 'I' files). There were 2,277 claims for service year 2000; 324 claims for 1999 and 40 claims for 1998 and 1 claim for 1997.

NOTE: Instead of being the last line on the claim, revenue code '0001' was embedded within the other revenue lines on the base record.

CORRECTIVE ACTION :
In the NCH Version 'I' files, the annual service year 2000 files, service year 1999 and 1998 trickles were patched. The 18-month final service year 2000 SAF was created after the fix was applied. The 18-month service year 1999 was patched. A patch code '15' was created with a patch applied date of 06/29/2001.

HHA_TOT_VISIT_CNT_LIM

FULL NAME: HHA Total Visit Count Limitation
DESCRIPTION :
NCH HHA recovered claims may be missing the claim-level total visit count.
BACKGROUND :
During the recovery of NCH dropped claims it was discovered that there is a possibility that some

or all of the HHA claims may be missing the total visit count. There were 997,422 recovered HHA claims.

The field comes in from CWF but is also derivable from looking at revenue center trailer information, in combination with the Claim From Date. Beginning in 7/1/99, with HHA claims received with service dates 7/1/99 and after, the claims processing systems started counting visits based on the number of HHA visit revenue center lines. Prior to 7/1/99, the count was derived by adding up the units field associated with the HHA visit revenue centers.

To identify these claims, look for service year 1998 and 1999 HHA claims with revenue center codes 042X, 043X, 044X, 055X, 056X, 057X, 058X, 059X with missing total visit count. If the Claim From Date is less than 7/1/99, derive the total by adding up the Revenue Center Unit count for each of these visit revenue centers. If the Claim From Date is greater than 6/30/99, derive the total by counting each visit revenue code line item as 1 visit.

CORRECTIVE ACTION :

During the history conversion to Version 'I' the NCH and SAFs were patched to correct the problem. Any service year prior to 2000 could be involved. The patched record will be annotated with an NCH Patch Code = 12.

The patched claims will have an NCH Weekly Process Date of 12/10/99, 12/17/99, or 1/7/00.

MCO_PD_SW_LIM

FULL NAME: Claim MCO Paid Switch Limitation

DESCRIPTION :

The MCO paid switch made consistent with criteria used to identify an inpatient encounter claim.

BACKGROUND :

During the NCH Version 'I' conversion, history was populated with an NCH Claim Type Code that will identify the record as an inpatient encounter claim. When applying the CWF logic to identify an inpatient encounter claim, it was discovered that when all the criteria was met the MCO paid switch was sometimes a blank or '0' (reflecting that the MCO did not pay the provider).

CORRECTIVE ACTION :
With the inception of the Version 'I' processing (7/00), if all the criteria for identifying an inpatient encounter claim is met but the MCO paid switch is a blank or '0' it is changed to a '1'.

A patch code = '13' was applied to all claims back to 7/1/97 service year thru date.

MLTPL_REV_CNTR_0001_CD_LIM

FULL NAME: Multiple Revenue Center '0001' Code Limitation
DESCRIPTION :
Multiple total charge '0001' revenue center codes appearing on outpatient, hospice and home health claim records.
BACKGROUND :
On outpatient, home health and hospice it appears that more than one '0001' revenue center code is showing up on the claims. The first total charge line adds the revenue center codes above it correctly; the problem exists below the first total charge line where garbage may be present due to the FI Standard System not clearing out fields before processing the next claim. We believe the error began with the change-over to a different claims processing contractor in 1/98.
CORRECTIVE ACTION :
CWF created an edit to reject mulitple '0001' revenue center codes, effective 6/28/99. EDG's CWFMQA process implemented an edit to drop any revenue center line items below the first total charge line. The NCH Nearline File, as well as the 1998 Standard Analytic Files (SAFs), have been patched/corrected to delete the multiple '0001' codes where present on any of the institutional claim types. Also, HCIS will be cor-recting the revenue center summaries during the next refresh.

The NCH_PATCH_CD field will reflect a value '10'.

PMT_AMT_EXCEDG_CHRG_AMT_LIM

FULL NAME: Claim Payment Amount Exceeding Total Charge Amount Limitation
DESCRIPTION :
Approximately 75 Inpatient claims had a reimbursement amount exceed $500,000 which was at least 25 times the total charge amount. There were also claims where the reimbursement was less than $500,000 but greater than the total charges.
BACKGROUND :

In November of 1999, it was brought to the attention of the HDUG that large reimbursement amounts were being paid in Pennsylvania. There were 75 inpatient claims provided where the reimbursement amount was over $500,000 and at least 25 times the total charge amount. These claims were processed between 9/29/98 and 10/1/98. There were also claims identified with reimbursement less than $500,000 but greater than total charge. It was later discovered that the source of the problem was an error in entering an MSA; the decimal point was off by 2 positions.

Because there were no changes in utilization, the claims were corrected and the correct payments distributed, but the new payment amounts were never sent to CWF (not in NCH). There is currently no requirement that FIs and carriers update CWF with final payment information by submitting payment only adjustments. It was noted that there is no expectation that CWF wll have final payment information for claims.

CORRECTIVE ACTION :

According to Veritus (FI), the problem was caught in their system using a pre-payment edit prior to sending out the payments. The erroneous MSA value was corrected and the claims were then sent to PRICER again and paid correctly.

The claims were corrected and correct payments were made but these new payment amounts were never sent to CWF and are not reflected in the NCH.

REV_CNTR_IDE_NDC_UPC_LIM

FULL NAME: Revenue Center IDE, NDC, UPC Limitation

DESCRIPTION :

Missing data in the REV_CNTR_IDE_NDC_UPC_NUM field.

BACKGROUND :

Prior to Version 'I', this field housed only the 7-position exemption number assigned by the FDA to an investigational device after a manufacturer has been approved to conduct a clinical trial on that device. With Version 'I', this field expanded to 24 positions to accommodate the future receipt of the National Drug Code and the Uniform Product Code. The CWFMQA editing process was moving the IDE to the expanded field, but then incorrectly blanked it out (positions 8-24 should be blank).

CORRECTIVE ACTION :

CWFMQA fixed the code and the problem was corrected with claims processed with NCH weekly process date 9/15/00.

DESCRIPTION :

BACKGROUND :
Under Version 'I', a decision was made that any amount, count and quantity field would be zeroed out to eliminate the risk of overstating values during an accumulation.
CORRECTIVE ACTION :
The CWFMQA front-end process was modified to zero out the total charge amount field in segments 2-10.

TOT_CHRG_AMT_LIM

FULL NAME: Claim Total Charge Amount Limitation
DESCRIPTION :
The total charge amount field in the fixed portion was truncated on outpatient, hospice and home health claims.
BACKGROUND :
For outpatient, hospice and home health claims, the total charge amount field in the fixed portion was truncated (the cents were dropped off; the decimal point was moved, making cents out of dollars) in the CWFMQA process beginning with data received from CWF 1/4/99 through 5/14/99. The problem occurred when CWF increased the size of the field.
CORRECTIVE ACTION :
The CWFMQA front-end was fixed. The Nearline was patched during the quarterly merge in 7/99 for service years 1998 and 1999. The NCH_PACTCH_CD field will be populated with a value '11'. The 1998 and 1999 SAFs were corrected when finalized in 7/99.

The patch involved moving the total charge amount in the revenue center trailer to the total charge amount field in the fixed portion, for records with NCH Daily Process Date 1/4/99 - 5/14/99.
